ANTIQUE-BY-HAND

Antique-By-Hand®, A House of Antique Hardware Exclusive

At House of Antique Hardware there are no shortcuts to reproducing the past. To recreate the gentle, time-worn patina of genuine antique hardware we have developed Antique-By-Hand (ABH), an exclusive five-step finishing process. If you strive for authenticity in your project, whether it's a historical restoration or a new home in a vintage style, our Antique-By-Hand products will satisfy your desire for a truly period look.

A Living Finish

Unlike a machine rendered and lacquered "antique brass" finish, ABH is individually applied and left unsealed. The item is hand burnished to create subtle highlights and treated with a refined mineral oil for added depth and luster. The result is a living finish with a warm, mellow tone and individuality that will age gracefully with use - just like the originals.

Caring for ABH Products

To remove any residual oil from your new ABH product, lightly wipe your hardware with a dry paper towel or rag. Thereafter, a simple dusting or gentle cleaning with a damp cloth is all we recommend. We strongly discourage using any cleansing agents or polishes, as this will remove the antique patina. Please note, your product will develop highlights from day to day handling and the overall color may lighten or darken somewhat, depending on the environment.

Questions?

If you want an item in the Antique-By-Hand finish that you don't see listed, or have any questions about Antique-By-Hand, call our Hardware Specialists at (888) 223-2545.

Note: Products offered in our exclusive finish are denoted by the letters ABH in the item number.
